MEMORANDUM

FORT WAYNE
PARKS AND
RECREATION

DATE: April 4, 1994
TO: City Council Members
FROM: Jerome Byanski, Superintendent of Buildings and Grounds
SUBJECT: Purchase of a 10'-6" 4WD Riding Mower

S-94-04-04

Bids were advertised and received for one (1) 10'-6" four-wheel drive riding mower for Parks and Recreation turf maintenance. This will be a multi-purpose machine that will be used to mow park slopes and river dikes, Derby Hill and all soccer fields. It will also be used to keep up with ball diamond outfield mowing during peak mowing times. It will replace a 1967 (27 year old) mower that is currently our prime athletic field mower.

Only two (2) bids were received for the specified mower. The bidders are:

1. Kenney Machinery - Toro 445-D . . . . . $29,606 Base Bid
   a. Full Cab with options 4,494
   b. Speed Control 324
   c. Mulcher Kit 730
   d. TOTAL $35,154

2. Allen Co. Tractor Sales - Howard Price Turf Blazer . . $27,569 Base Bid
   a. Full Cab with options 2,218
   b. Speed Control . . . . . .STD
   c. Mulcher Kit 555
   d. TOTAL $30,342

The LOW BIDDER's mower DOES NOT meet the specifications in several crucial physical and operational (production) categories.

ENGINE:
55 horsepower was specified. The low bid unit has 14.5% less horsepower than specified. This would pose a problem in lack of power when mowing slopes or heavy wet grass.

SPEED:
Specifications call for two speeds (low range: 0-6.5 mph and high range 0-15 mph.) The low bidder has no variable range. It is single speed - 0 - 10 mph. Ten mph is not fast enough for over-the-road transport or across a large park. Without the mandatory low range for mowing, mowing production will be adversely affected (reduced).

705 EAST STATE BOULEVARD FORT WAYNE, INDIANA, 46805 219-483-0057

WEIGHT/GROUND CLEARANCE:
Specifications call for 7" ground clearance. The low bid unit has only a 6" clearance. This minor difference is vital to stability when moving over curbs, slopes and other rough terrain..

The low bid unit only weighs 2,740 lbs. The Toro weighs 5,100 lbs. The heavier machine will allow the machine to mow ACROSS slopes with less slippage and improved operator safety.

MISCELLANEOUS:
Past experience with ownership of Howard Price mowing equipment proved to be less than satisfying. Parts were difficult to obtain in a timely manner and the units were inferior in quality to competitor's products.

FUEL CAPACITIES:
14 gallons was specified. The low bid unit holds only 9 gallons of fuel. The Toro has a 14 gallon capacity. Daily consumption is expected to be 10 to 12 gallons. Two daily fuelings would be required on the low bid unit - only one on the Toro.

PARKS AND RECREATION DEPARTMENT RECOMMENDATION:
While the low bid unit would save $4,812, it does not meet specifications or the quality or performance of the specified unit. We recommend approval by Council for the Toro 455-D as bid by Kenney Machinery at $35,154.

DIGEST SHEET

TITLE OF ORDINANCE: Special

DEPARTMENT REQUESTING ORDINANCE: Purchasing

SYNOPSIS OF ORDINANCE: An ordinance approving the award of I.T.B. #7035 for the purchase of rotary mower for the Park Department.

IF NOT LOWEST, WHO WAS AND WHY WERE THEY NOT AWARDED:
Allen Co Tractor Sales was low - see attached memo from Jerry Byanski of the Park Department.

EFFECT OF PASSAGE: Purchase of mower to cut athletic fields, hills, and slopes. This mower will also serve as a backup mower to the large mowing operation.

IF REPLACEMENT, WHAT NECESSITATES: Replaces older 1968 mower.

EFFECT ON NON-PASSAGE: Maintenance of athletic fields will be mowed with less reliable equipment. Athletic fields are on a tight schedule for use. This new mower has 4 wheel drive which will enhance employee safety and production in mowing slopes and hills (river dikes).
